Project Design Phase-I
Proposed Solution Template

Date	25 September 2022
Team ID	PNT2022TMID36715
Project Name	Nutrition Assistant Application
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	People pay attention to fitness more now-a-days, so proper diet become more important as well, Although people have many ways of logging their food and calories, it can still be difficult for people to keep a consistent log without reduction. Thus, this project aims to develop a better application for users. That has a capability to record the information related to the duration and quality of sleeping, calorie tracking, food preference and the amount of nutrition consumed
2.	Idea / Solution description	By using this app users can track their daily activities and get preferred food according to their health.
3.	Novelty / Uniqueness	It could be easy to the user to use all the services.
4.	Social Impact / Customer Satisfaction	This issue occurs in person's health due to lack of nutrition by using this app they can get correct amount of nourishment.
5.	Business Model (Revenue Model)	Its great usability and amazing convenience and also have subscription once user hit certain services.
6.	Scalability of the Solution	People can access from anywhere and track their health.
